Reason for Allowance

The following is an examiner's statement of reasons for allowance: the prior art reference of records (US. 6,046,896) shows a booster comprising: a boosting circuit; an AND gate; an oscillator, a voltage detector. However, reference (US. 6,046,896) fails to teach or fairly suggest a voltage detector comprising a diode, first, second and third resistors; a bipolar junction transistor as called for in claim 1; a method of boosting battery output comprising detecting an output voltage of the booster with a voltage detector, when the output voltage reaches a predetermined value, a bipolar junction transistor is turned off for adjusting the output voltage as called for in claim 10. Therefore, claims 1, 3-5, 7-10, 12, 13 and 15-17 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
